

Aadil Khan

New York, NY • aadilmsds@gmail.com • linkedin.com/in/aadil815 • aadil815.github.io

Data scientist with experience applying Python, SQL, predictive modeling, statistical analysis, and visualization to healthcare, behavioral, environmental, and consumer data. Translates complex datasets into actionable business, policy, and research insights.

EDUCATION

University of Pittsburgh (Pittsburgh, PA)
School of Computing and Information

Master of Data Science (2026)
GPA: 4.0 *Summa Cum Laude*

Adelphi University (Garden City, NY)

Honors College & Gordon F. Derner School of Psychology

B.S. Molecular Neuroscience (2022)

Minors: Biology & Psychology

Awards: President's Student Leadership Award, Established Leader of the Year Award, Prestigious Panther Award, Honors College Medallion

Recognition: *Magna Cum Laude*, Honors for Academic Achievement in Neuroscience, Presidential Scholarship Award, Honors College Scholarship Award

TECHNICAL SKILLS

- *Programming & Data Science:* Python, SQL, Java, Pandas, NumPy, Scikit-learn, Statsmodels
- *ML, AI & Analytics:* Predictive Modeling, Bayesian Inference, Clustering, SPSS, ANOVA, LLMs (RAG, Agents)
- *Data Systems & Visualization:* Spark, PySpark, Hadoop, Docker, REST APIs, NoSQL, Tableau, Plotly, Excel, Git
- *Languages:* English (native), Urdu (fluent), Spanish (conversational)

DATA PROJECTS

Decant.one

June 2026 – Present

- Launched fragrance comparison aggregation platform supporting cross-vendor search, comparison, and purchasing decisions.

Data Science Projects, University of Pittsburgh

May 2024 – May 2026

- Developed predictive models on ICU patient data to analyze length of stay and mortality, identifying procedural intensity and admission context as key drivers; achieved ~50% explained variance in length of stay and ~0.76 AUC for mortality prediction.
- Created a normalized relational SQL database for Parfumo and analyzed business queries to identify key fragrance popularity trends.
- Analyzed NYC congestion pricing using MTA ridership data (2020–2025), evaluating policy effects and developing recommendations.
- Built clustering and predictive models to explain Spotify track popularity from audio features, evaluating performance via ROC/AUC.

Public Health Data Analyst, Citizens Campaign for the Environment (Farmingdale, NY)

May 2018 – May 2026

- Analyzed data on carcinogenic contaminants (1,4-Dioxane & PFAS) in self-care products, leading to the NYS drinking water law.
- Collected and visualized complex water-rate data; contributed to the *Cost of Water Report* featured in Newsday and on News 12 LI.

Biomedical Data Researcher, Adelphi University

Jan 2019 – Aug 2022

- *Neuroeconomics Honors Thesis Project:* analyzed nine fMRI regressors and visualized temporal neural responses to social rewards.
- *Genetics Lab Projects:* conducted phylogenetic and dN/dS analyses on BLAST sequence data, assessing evolutionary variation in tiger vocal cord morphology and leptin negative selection in primate menopause.

EXPERIENCE

Supervisor, Farmingdale Youth Council

March 2014 – Present

- Oversaw high school tennis instructors for grades 3–8, devised lesson plans, maintained equipment, and served as liaison to parents.

Ophthalmic Technician, Manhasset Eye Physicians

Nov 2020 – Jan 2023

- Prepared medical histories and telemedicine visits; conducted refractions and administered dilation drops for over 100 patients daily.
- *Machinery Operated:* IOL (cataract lens), OCT (macula & optic nerve), Visual Field (glaucoma), and corneal topography analyses.

Web Developer, Sensory Beans (Wantagh, NY)

Feb 2020 – Dec 2020

- Redesigned the Sensory Beans website, creating a modern, user-friendly experience with improved usability and digital presence.

Budget Analyst, Adelphi University

Aug 2018 – May 2019

- Managed and optimized the \$1.8M university budget, allocating activity fees for all undergraduate club and organization events.

Teacher, ICLI & Masjid Bilal (Westbury & Farmingdale, NY)

Dec 2017 – July 2025

- Taught grades 6–8 on weekends at the Islamic Center of Long Island (religious studies) and Masjid Bilal (New York curriculum).
